

Ariyan Ghosh

AI & Machine Learning Student | Full-Stack Developer | Open to Internships

+91 9134354844 | ariyanghosh009@gmail.com | Bengaluru, Karnataka – 560064, India

Professional Summary

B.Tech student specialising in Artificial Intelligence & Machine Learning at CMR University, Bengaluru (graduating 2027), with proven ability to design and deliver full-stack and AI-integrated software applications. Proficient in Java, Python, JavaScript, React.js, MySQL, and Firebase. Built four major academic projects spanning emergency response, sustainability, student networking, and database management. Certified across Google AI Essentials (5 courses) and Google Project Management (7 courses). Recognised for innovation at national-level design and AI events. Actively seeking Software / AI Engineering internship roles.

Education

CMR University <i>B.Tech – Artificial Intelligence & Machine Learning, School of Engineering and Technology</i>	2023 – 2027 (Expected) <i>Bengaluru, India</i>
India International School <i>Pre-University Course (PCMC)</i>	Completed: 2023 <i>Asansol, West Bengal</i>

Technical Skills

Languages: Java, Python, JavaScript, HTML5, CSS3
Frameworks & UI: React.js, Next.js (Basics), Responsive Design, Figma
Databases: MySQL, Firebase (Basics)
AI / ML: Generative AI, AI Integration, Prompt Engineering, AI Tools
Tools & Workflow: Git, GitHub, VS Code, Canva
Core CS: Data Structures & Algorithms, OOP, Problem Solving

Projects

Campus Connect – AI-Powered Student Networking Platform • Developing an AI-integrated networking platform for student collaboration, profile management, and opportunity discovery. • Built with React.js frontend and Firebase backend; integrating Generative AI for personalised recommendations. • Designed modular architecture covering peer discovery, profile pages, and AI-driven suggestions.	2024 – Present
GuardianX – SOS Emergency Response System • Built a real-time emergency-response application enabling rapid user assistance and alert broadcasting. • Designed accessible, responsive UI components; implemented communication workflows with structured testing.	2024
Green Code Guardian – Sustainable Coding Platform • Developed a sustainability-focused application promoting energy-efficient coding practices and software optimisation.	2023 – 2024
Database Handler – Library Management System • Designed and built a library management system with book tracking, availability status, and librarian-assistance features. • Implemented structured MySQL schema and backend connectivity for reliable data management.	2023

Academic Experience & Leadership

Volunteer – Prajnotsava 2026 National Technical Symposium <i>CMR University (IEEE)</i> • Coordinated and executed a two-day national-level technical symposium for the Dept. of CSE (AI-ML), SOET; awarded Certificate of Appreciation.	Mar 2026
Participant – Google Cloud Agentic AI Day <i>Google Cloud × Hack2skill</i> • Submitted an innovative idea for Agentic AI applied to real-world problem solving; awarded Certificate of Participation.	2025
Participant – Arduino Expo <i>CMR University (IEEE Student Branch, ECE Dept.)</i>	May 2025

Certifications & Credentials

Google AI Essentials Specialization (5 Courses – Intro to AI, Maximize Productivity, Art of Prompting, Use AI Responsibly, Stay Ahead of the AI Curve)	<i>Google × Coursera — Jun 2026</i>
Google Project Management Professional Certificate (7 Courses – Foundations, Initiation, Planning, Execution, Agile, Capstone, Job Search with AI)	<i>Google × Coursera — Jun 2026</i>

Awards & Achievements

Spirit of Innovation Award – CMR University Design Thinking Day ‘Cause 2026’ (Global Open Innovation Challenge)	<i>Apr 2026</i>
Certificate of Appreciation – Volunteer, Prajnotsava 2026 National Technical Symposium, CMR University	<i>Mar 2026</i>
Google Cloud Agentic AI Day – Certificate of Participation (innovative AI idea submission)	<i>2025</i>
India Sustainability Startathon 2024 – Innovation Bootcamp Completion, The Future Founders Co.	

Soft Skills

Effective Communication | Team Collaboration | Adaptability | Time Management | Quick Learner | Problem-Solving Mindset | Creative Thinking
